Subject: Lynn Canal RoadSTIP

The Lynn Canal Road project needs to be fully funded and supported without further delays to get this critical transportation link started NOW.

The aging ferry fleet is bottlenecking SE Alaska's transportation demands and the swallowing our States financial resources.

The road, built all the way to Skagway, is the best investment that can be made for the long term benefits it will provide Alaska's residents and visitors.

The Lynn Canal/Skagway road link will free up the remaining ferries to better serve the rest of SE Alaska.

I built the Alaska pipeline in a rapid, environmentally safe fashion. I know, as I worked on the pipeline as a 19 year old. This road can be built just as quickly and without harming wildlife habitat or the land this vital hard link to the rest of world provides.

Thank you,
